(By G. C. BAKER, County Agent)
POULTRY HINTS.

Enroll as cooperator now. A poultry calendar will be sent to all co-operators, to be used in keeping the records. If you wish to enter this contest and receive the calendar and monthly hints see your County Agent at once.

Prepare for Winter.—The success you have with your poultry flock depends to a large extent on the number of winter eggs your flock lays. Now is the time to prepare for winter. The house should be remodeled now if it is not satisfactory and it is advisable to order the winter supply of corn feeds as tankage, oyster shell, or ground limestone, shipstuffs, etc. The price is usually lower now. Also if you have this feed on hand there is no danger of having to do without it at any time.

Feeding.—Start feeding your pullets a combined ration now if you haven't been doing so all summer. It will bring them into laying earlier and make them more profitable. It is advisable to keep your pullets in good flesh to avoid fall molting and a falling off in production during the winter. This can be done by giving more grain during the fall and winter. Feeding trials at the Experiment Station Farm have shown that grain and milk make a very satisfactory ration where as much corn skim milk or buttermilk as one gallon to 50 hens each day is available. With this a grain mixture should be fed at the rate of 12 to 15 pounds of grain for 100 hens each day. It is highly important that oyster shell or ground limestone be kept before birds at all times.

Farmers Find Culls Do Not Produce Eggs

Lexington, Ky.—Eighty hens culled from the flock of 150 Brown Leghorns owned by W. W. Hampton, an Oldham county farmer, failed to produce a single egg during the week after they were removed from the flock, according to a report which he has just made on the culling demonstration conducted on his farm by poultry men of the College of Agriculture.

During the week before culling the 150 hens in Mr. Hampton's flock produced a total of 180 eggs. During the week after the 50 looser hens were removed, the 100 hens produced as many eggs as the 150 had produced during the week before culling. Similar results were obtained by Mrs. Lee Kendall, of Taylor county, and Mrs. Charles Gentry, of Fayette county.

Scrub Cows Eat Profits, Fair Exhibit Will Show

Lexington, Ky.—"Do you keep cows or do cows keep you?" will be one of the questions that will confront Kentucky farmers and dairymen when they visit the coming State Fair, according to N. B. Elliott, who is in charge of the educational exhibit which will be made by the extension division of the College of Agriculture.

The exhibit of the dairy department will be built around the models of two cows—one a well-bred, high-producing animal and the other a scrubby, boarder type of individual found on many farms. A huge bank book will be displayed over the models of the animals to show the profits that each type of cow returns to the farmer during a year. The records on this book, which will be taken from two farms in Kentucky, will show that the milk and cream alone from ten cows of the high-producing type yield almost two and one-half times as much profit during the course of a year as that from ten cows of the scrub type. Feed records from the same farms will show that the ten poor cows consume as much during a year as do the ten profitable cows.

A CARD OF THANKS.

We wish to extend our heartfelt thanks for the kindness shown us during the sickness and death of our dear little girl Pauline, and for the many beautiful flowers and the consoling words that were spoken.

HOME CIRCLE COLUMN

A COLUMN DEDICATED TO TIRED MOTHERS AS THEY JOIN THE HOME CIRCLE AT EVENING TIDE.

God made the country and man made the town.
What wonder then, that health and virtue, gifts
That can alone make sweet the bitter draught
That life holds out to all, should most abound
And least be threatened in the fields and groves.

William Cowper

A BOOK IN DEMAND.

Some day some sensible man or woman will write a book called "Home Philosophy."

There will be a chapter on the philosophy of washing dishes without making a mess or getting mad.

There will be a chapter devoted to making beds without mountains or valleys.

There will, of course, be several chapters about good health and air, says the Quincy Herald.

The woman who fills her home with knock-knocks will receive a gentle chiding, and the man who fills the house with tobacco ashes from his pipe or cigar or cigarette will receive a mild scolding.

The man who never stays at home evenings will get what he deserves, and the woman gadder will get hers, too.

That dear home body woman will receive full credit.

That fine man who works and thinks and lives for his home will be remembered.

"How to Run Your Furnace," three chapters.

"How to Keep on Good Terms With the Janitor," five chapters. No living person has solved this problem. It is extremely important.

"The Home Roundup," let us hope will receive proper attention.

This is the time of the year when all the youngsters have started back to school. The schools may train his mind, furnish him with more or less amusement, look after his morals and health and give him more or less of a religious training. But with all that the essential thing in a child's life is love, and home is the only place where the real meaning of the word can be taught.

Keep love out of home and the child will in all probabilities grow up cynical and hard. The natural instincts of a child is to love and be loved. Keep that out of their life and their education is incomplete. Surround him with a considerate and loving family and he will in turn be loving and considerate.

The home in some phase or attribute has been a fruitful theme for literature through many centuries of civilized life. The most voluminous as well as the most varied treatment of the same and its inner issues has been at the hand of the poet. This is due to the fact that domesticity is closely bound up with our affectional natures and touches themes of nobility, fancy, attachment or association that have become a part and parcel of our lives and cannot be detached from them, even through a long stretch of years. Few writers could find a topic were it not for the innocence of children, the joys of youth, the bluish and bloom of maidenhood, the wisdom of beauty, of old age, or the myriad other inspirations of the home.

Every child has a right to a happy childhood. The recollection of a sunny childhood is an auspicious inheritance and a splendid preparation for the strain and burden of life. In China the first four or five years of a girl's life are a continual agony. All the children in India are born old. Go among the submerged masses in any of our great cities and you will find children barren and desolate beyond description. To have this joy crushed out of a little life is a sorrowful tragedy. Gray skies will often weep above them in the after years; see to it that, so far as possible, these early years are unclouded. Let them have their childhood.

Don't allow yourself to be bored. It makes you an uninteresting companion. The varied interests of your friends are as worthwhile as yours and if you show a friendly spirit and are concerned over their comings and goings you will find your own life is not so narrow and will take a much brighter aspect.

LOUISA PEOPLE GIVE CREDIT WHERE CREDIT IS DUE.

People of Louisa who suffer with weak kidneys and bad backs want a kidney remedy that can be depended upon. Doan's Kidney Pills is a medicine for the kidneys only, and one that is backed by willing testimony of Louisa people. Here's a case:

J. H. Compton, prop. of machine shop, Louisa, says: "I am glad to give Doan's Kidney Pills my endorsement, as I have used them off and on when my kidneys were out of order, and they have given me quick relief. In my line of work there is much stooping and straining and my back at times became lame and painful. My kidneys didn't act regularly and I was feeling out of sorts. Dizzy spells and headaches caused me to feel worse. After using Doan's Kidney Pills which I got at the Louisa Drug Store Co., the trouble left. Doan's have never failed any time that I have used them."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Compton had. Foster-McMillan Co., Mfrs., Buffalo, N. Y.

A Fine Car Made Finer

Announcing the Jewett Special—\$1095

The Jewett Special is now ready for your inspection and once again we promise you a genuine surprise.

Here is a touring model of this sturdy Paige-built 50 horsepower Six that without doubt you will declare is as smart in appearance as anything you have yet seen on the road.

That will be your first impression. Then examine the car closely. Observe the nickel radiator, the beautiful moleskin gray finish on body and hood. Note the disc wheels with demountable rims and outside valve stem—a factor of both beauty and safety. Then examine the special Spanish hand-crushed leather upholstery, gray in color to harmonize with the body.

When you have finished checking up the numerous features of this beautiful and distinctive car, then will come the pleasantest surprise of all—the price—only \$1095 f. o. b. factory, just \$100 more than the standard job.

At that amazing figure there is nothing on the market today that approaches the Jewett Special in beauty, equipment or value.

Beans In Corn Build Up Soils At Low Cost

Lexington, Ky.—With corn and soybeans in the best stage for hogging off in practically all parts of the state, many Kentucky farmers are finding that growing the beans in the same row with corn offers a means of bringing about considerable soil improvement at small cost. Results show that nitrogen valued as high as \$11.50 was obtained through the use of about 50 cents worth of bean seed.

GENIUS OF JENKINS

The following is an editorial from the Courier-Journal.

John C. Smyth, general manager of the Elkton Division of the Consolidation Coal Company, killed by a fall of slate in a Pike county mine, devoted the best years of his life to work in a section of Kentucky unknown to a majority of Kentuckians. He was one of a group of men who began work in a wilderness, "dragging in" with ox teams the machinery and other materials that went into the making of the power plant which is the heart of the mining town of Jenkins. In the Elkton Valley across the divide from the headwaters of Kentucky River, Mr. Smyth more than anyone else in the group of pioneers must be credited with the creation of a beauty spot amid rugged surroundings. It is not always, or often, the case that a landscape which has had the charm of the unmarred forest is improved by the implantation of a mine camp in its midst.

Jenkins, with its neat, broad, well-paved streets; with its sloping lawns of bluegrass, "imported" from the central counties, running down to a blue lake, is John Smyth's realized ideal of a mining town.

It is, despite the fact that the lake lies behind a utility dam and the fact that the fundamental purpose of the building of Jenkins was to dig coal and deliver it into steel gondolas, a suggestive example of the possibilities for beautification which exist, hardly noticed, in the mountains of Kentucky. In that region the climate, uncapitalized, is as good as it is in the mountains of North Carolina, where it is highly capitalized.

Of course, Mr. Smyth, whose untimely death roles a great corporation of a practical man and a valued employee, didn't build Jenkins to show Kentuckians what could be done, in the way of improvement, in a mountain valley. He expected to be a resident of Jenkins, and, moreover, he believed that surroundings pleasing to the eye exerted a considerable and a highly beneficial influence upon the employees of a mining company, including the men who dig coal. He believed that everybody who lived in Jenkins, and that everyone would, if given good reason for pride. And so Jenkins became the sort of mining town in which any reasonable resident must take pride. Miners who had lived squallidly in many camps fell in with the idea that a home should not be a hut on a bald spot on the side of a hill, and planted vines and flowers.

Had Mr. Smyth's city beautiful plan solved the labor turnover problem, or lessened greatly the disposition of miners to drift to new diggings, the story of his life work would have had a moral for mine operators. It hardly can be asserted that it has such a moral, but every Kentuckian who goes to Jenkins and is told that this is the mining town that reflects the ideals of John Smyth will feel that Eastern Kentucky owes something to a mining man who had the perceptions, and the inspiration, of a landscape gardener.

SAM COLLINS COMMENDED AS A GOOD OFFICIAL

The public of Kentucky is convinced that Sam Collins, chief of prohibition forces in this state, is an honest man doing his best to perform a difficult and sometimes hazardous duty, who has the ill-will of a well-organized gang of outlaws in close communion with certain low-grade politicians. Therefore, the public will be on Mr. Collins' side in any charges or complaints made against him until it is very definitely and overwhelmingly proved that his actions, or any of them, are wrong. The Times, for one, proposes to do all in its power to bring out the facts in connection with the very evident political move being made against Mr. Collins at Washington. And it is fairly certain that full publicity in this case will further establish Mr. Collins in the confidence of Kentucky. —Louisville Times.

BISHOP DARLINGTON.

In writing of the Kentucky Conference, the Central Methodist has the following to say of a great man well known in the Big Sandy Valley as the result of his excellent work as Presiding Elder:

"The Conference was presided over by Bishop C. V. W. Darlington—our own Bishop Darlington. Born and reared only a few miles away, converted under the ministry of W. W. Green, licensed to preach by the Quarterly Conference presided over by Dr. W. F. Vaughan, a student of Kentucky Wesleyan College, a member of the Kentucky Conference for ten years, greatly beloved by his brethren with whom he labored in his early manhood, Bishop Darlington had come back to preside over his old Conference and over his old comrades. He did it well! Kind and brotherly, never in a hurry, yet ready enough in his decisions and prompt in the dispatch of business, it is stating it mildly to say that he greatly pleased the Kentucky Conference. A deeply religious Bishop will always have a religious Conference. His spirit will beget a like spirit in others. We had a great Conference under Bishop Darlington's presidency. His sermon on Sunday morning more than met the expectations of the great congregation, and we heard it said by several that his address to the class admitted into full connection had more of common sense and religion packed into it than any other address they ever heard. We have but one fear in the case of Bishop Darlington. He does not spare himself. Our fear is that, as was the case with Bishop Kluge, his body will wear out before his time. Brethren must spare him."

A TRIBUTE.

(Continued from page one)

to be crowned with phenomenal success and honor. Early in his youth he learned to rely on himself, was willing to risk his own judgment and to his undaunted soul there seldom came the thought of failure—steadily he fought his way to the front and easily maintained his vantage ground with each new proposition, new investment; and, despite his varied experiences, temptations no doubt, in the handling of large business interests—railroad corporations and mining corporations, all investments, he leaves as a legacy to his family, a spotless reputation—his escutcheon was clean, and in his death he closed a career as honorable as it was useful—peace to his ashes.

His life briefly summarized is as follows:

Martin Leslie Conley was 51 years old second son of A. J. and Elizabeth Conley. Early in life he learned the printer's trade in the Big Sandy News's office, but later decided he wanted to be an engineer, and to this end he saved his money and took civil engineering at State College, now State University, Lexington, Ky. To prepare for entrance there he studied and recited at night to Prof. Gayhart, working every day. After graduation his first position was with the Southern Railway Company, next with U. S. Engineering Department in Pittsburgh District—lock and dam work. In the year 1898 he decided to go to Alaska, but R. M. Hoas and J. P. Thomas offered him the position of Assistant Engineer of a new railroad enterprise and he accepted it, abandoning his going to Alaska. Subsequently Mr. Thomas resigned his position as Chief Engineer of the new railroad construction and Mr. Conley was promoted to Chief Engineer, and when the road was completed he was made Superintendent and General Manager of the Ohio & Kentucky Railway, a position which he held up to his death. Later he was in charge of the Cannel City coal mines, property belonging in the same eastern capitalists who owned the railroad of which Mr. Conley was the Superintendent and General Manager. In his management and supervision of the Cannel City coal mines Mr. Conley was universally popular—built what was then considered a model mining town, Cannel City, Kentucky, and in this mining camp he took and trained the natives for all of the more important places connected with coal operations as a result of which there was never a strike at this plant, a fact of which Mr. Conley had a right to be proud. He had, however, tendered his resignation some two years ago. It had not been accepted, but it was his purpose to insist on being relieved on or before January 1, 1923. Mr. Conley organized the Morgan County National Bank about eighteen years ago and served as its president up to the date of his death. It is a very successful institution.

The last Legislature of Kentucky named Mr. Conley as a member of the State Highway Commission, writing his name into the bill creating the Commission, although he was not an applicant. He was selected because of his special fitness and qualification by education and training to have charge of road building in Kentucky.

We do not attempt to write in detail a record of the life of Martin Leslie Conley. His life was so full and complete that the pen falters and he who reads will realize the futility of attempting to collaborate a complete account of such a man.

The deceased leaves a wife and three children, all boys: Leslie, age 17; Richard, age 9; Mart, age 6. His wife was Miss Anna Adams, of Lebanon, Kentucky, a most excellent woman, as we are reliably informed. The writer has not had the pleasure of an intimate acquaintance with Mrs. Conley.

Two years ago the family of Mr. Conley took up residence in Cincinnati, temporary quarters in order to afford the children better educational advantages than could be had in Cannel City.

He believed that the man who helped his fellow-men was doing God's service. His life was molded upon this faith. If there be one soul at whose approach the pearly gates of the Celestial City shall open widest and offer its entrance to its eternal glories, surely it must be the one who in his life on earth strove hardest to do the work, to shelter the defenseless, to lighten the burden of the heavy-laden, and who brought the most smiles and the fewest tears into this world. Measured by this faith he could face the silent unknown future and rely with just and reasonable confidence upon that most impressive and momentous assurance ever delivered to the human race, "He that believeth in Me, though he were dead, yet shall he live; and whosoever liveth and believeth in Me shall never die." —B. C. McC.

Ashland's New Schools Named for Judge Hager and Rev. Dr. Condit

"John F. Hager" and "William C. Condit" are the names of the two new school buildings of Ashland's public school system, located in Pollard and South Ashland respectively. The names were selected by the board of education. The names of the two new buildings will be carved in large stones and will be located over the entrance to the schools.

Judge Hager is an eminent jurist of the state. He is a former president of the Boyd County Bar Association and a vice-president of the Kentucky Bar Association. His name has been linked with almost every civic improvement during the history of Ashland. Rev. Dr. Condit is one of Ashland's best loved pastors. For fifty years he was pastor of the First Presbyterian Church.

Contractors at work on the Sandy division of the C. & O. report the near completion of a side track at Catalpa, which will be the first among the large number already contracted for on this division. The purpose of the new tracks is to relieve congestion on the road to a more than noticeable extent. It will also aid passenger service greatly.

A "Coat Season," Truly

--and an Autumn's Modes were never more worthy of receiving the plaudits of Fashion

A superior talent evolved the fur-trimmed, dressy coats and wraps for Fall. They are superb, graceful, and show so many new ideas of design and decoration that it is little wonder they have usurped the most envious place in the Fall wardrobe. The frock of course, goes hand in hand with this idea, for its smartness must be in keeping with this mode—and is. This charming combination is primarily responsible for the "Coat and Frock" verdict of so many women who are changing their Fall wearables now.

Our Remarkably Complete Showings Will Aid You

We early anticipated the prominence of the new Coat Mode, and prepared a selection that we feel sure will be the means of offering every woman a becoming model. It will be easy to choose from, because it includes every favored type—and besides, the coat mode is so varied in fabric, trimming and silhouette that one is not restricted to any one particular style. Rich fabrics of the pile variety are fashioned into wrappy effects, straight-line models and the low and belted waist-line styles.

Furs are generously used—notably beaver, Siberian squirrel, wolf and caracul. Colors run the full range of the favored browns, and offer the usual choice of blues and black. Priced from \$24.50 to \$295.00.

Moonshiners Get Heavy Fines in Lawrence Court

The Ashland Independent says: Moonshiners and liquor peddlers in Lawrence county, much to their regret have learned that when the long arm of the law hands it delivers a knock-out blow.

Before the present session of the Lawrence county court, presided over by Judge Henry Woods of Olive Hill, have come no less than thirteen cases of liquor violations and in almost every instance the juries have seen fit to give the maximum punishment.

The prosecutions are in charge of Commonwealth's attorney Fred Vinson and County Attorney G. W. Castle who are exerting every effort to see that violators are prosecuted to the limit. The moonshiners have all been apprehended through the efforts of Sheriff J. W. Young.

Miss Ollie Pigg and Mr. Everett Chapman Wed

Whitehouse, Ky. There was quite a surprise in the little town of Whitehouse on the 23rd in the nuptials of Miss Ollie Pigg and Mr. Everett Chapman, both of Louisville. The bride is the accomplished and estimable foster-daughter of Mr. and Mrs. Tom Hatcher, of Louisville, and niece of S. M. Pigg of this place. The groom is the son of Mr. John Chapman, of Florida.

A very impressive ceremony was performed by Rev. David Isborn. A wedding supper was served at the home of the bride's uncle, S. M. Pigg, only a few intimate friends were present.

After the wedding the happy couple went to Garrett for a few days' visit, after which they will return to Louisville.

WAYLAND LOSES 2 GAMES TO LOUISA

(By S. A. Moore)

Slipping over one lone run in the lucky seventh inning, Louisa defeated the Wayland nine 1 to 0 here Saturday. It was a tight ball all the way with the exception of the seventh inning.

Bradford, Wayland's twirler, weakened for a moment and walked the run which was brought in by Coudill's second two-bagger of the game.

Wayland went no farther than first base at any time in the game. "Big Alex" Frazier threw them out in rapid fire style when they attempted to steal the second pillow. McGuire took care of the visitors the rest of the way. He struck out ten men.

In the second game on Sunday Louisa again defeated Wayland, the score being 7 to 1. The visitors scored their only run in the sixth on an error followed by two singles.

Pemberton pitched for Louisa and allowed only five singles, two of which were scratch hits. Murray, Taverner and Copley did most of the willow work for Louisa.

First Football Game of Season Next Saturday

With both teams keyed to the highest possible point coaches Dorsett of Louisa High School and Shultz of Catlettsburg are keeping their charges quiet today in preparation for the Louisa-Catlettsburg game on the point at 2 o'clock tomorrow.

Squad practice will be given the Louisa High School squad this afternoon on the Public School ground. "Skull" practice will be held by Coach Dorsett in the High School tomorrow morning.

The team to date is an unknown quantity as this is their first year of football. The candidates have shown up well in this week's practice and indications for a good game are shown.

The line-up has not yet been announced but it is thought that practically every candidate will be given a chance in the opening game. It is likely that Roberts will start as quarter and Carter, Hale and Compton as the other backs.

Tickets have been on sale all week. The advance price is 50 cents but tickets may be obtained at the gate tomorrow afternoon.

THE BIGGS TRIAL.

(Continued from page one)

there the Biggs told me they wanted me to go to Kentucky to kill Chas. F. Duvall," the Italian said. "I was to get \$50,000 if I killed him and \$25,000 if I failed after making the attempt."

"One of them threw a \$100 bill on the table and told me to go get myself a cup of coffee with it."

Giardina claimed that he did not agree to make the trip but told them that he would see them later. On May 15, he claimed, that he met Jack Biggs in Hammond, eleven miles from Gary, and from there accompanied Jack to Ashland, Ky.

"Maud Biggs drove me out to the farm and I stayed there two days, going back at the end of that time to Ashland."

"I stayed there until Thursday morning. That morning Jack told me that he had cut the telephone wire and that he expected Duvall along soon. (He is a lineman for the telephone company.)"

"Duvall came along in a truck with his son and Watt King. Jack pointed Duvall out to me and told me that he was the man he wanted killed."

"He gave me a double-barreled shotgun and gave my companion a pistol. Maud Biggs gave me some other clothes. We went up the Midland Trail toward Olive Hill and hid in the bushes near a curve in the road."

"We stayed there until the truck came along and as it passed us, I shot my gun and my companion his revolver. We ran and I stayed in the coal bank until morning."

"I tried to inquire my way to the railroad station the next morning and was arrested when I got there."

Leah Giardina, American wife of the Italian was placed on the stand at the night session.

"If you value your life you had better stick with us," is the statement she attributes to Jack Biggs, claiming that he made it in the courthouse here since the trial started.

She also claimed that Bob Biggs had a knife up his sleeve when they were all at the station at Hiteches.

Strong testimony looking to impeachment of some of the defense witnesses was presented.

Four speeches are to be made and as we go to press at 3 p. m. the first speaker is concluding his argument.

Large Oil Well Brought In Near Salyersville, Ky.

What is believed will prove to be the largest oil well in Magoffin county was completed Tuesday by David Browning and associates on the Ham May lease No. 1.

The well extends the Burning Fork pool at least two miles. The lease is owned chiefly by David Browning of Ashland and Dr. Elsie Young of Lexington.

The new well is located on Short Fork, about two miles north of the newest well on Burning Fork and about seven miles from Salyersville. It is just off the Ivyton dome.

Pikeville Man Gets Three Years in Pen

Lee Billy Mounts was convicted and sentenced to three years in the Frankfort reformatory for killing his brother-in-law Toney Colley, in Pike Circuit Court.

Mounts' son left home and went to live with Colley. Mounts resented this and when he went to Colley's to complain his son to return home a general fight ensued in which rocks were thrown freely. One of these struck Mrs. Mounts. It is said, and soon after her husband fired the fatal shot.

A Wish

"I have taken Cardui for run-down, worn-out condition, nervousness and sleeplessness, and I was weak, too," says Mrs. Silvie Estes, of Jennings, Okla. "Cardui did me just lots of good—so much that I gave it to my daughter. She complained of a soreness in her sides and back. She took three bottles of

and her condition was much better.

"We have lived here, near Jennings, for 25 years, and now we have our own home in town. I have had to work pretty hard, as this country wasn't built up, and it made it hard for us.

"I WISH I could tell weak women of Cardui—the medicine that helped give me the strength to go on and do my work."

ENEMIES OF AMERICA

Success always produces enemies. We are not discussing the external enemies of America, because her danger is not from without; it is from within. Her menace is being generated in her own bosom.

Let us discuss some of them.

FIRST—The bad citizenship of good citizens.

The banker, lawyer, doctor, merchant, minister, teacher, or other professional and business men who spend their entire time looking after their own interests to the neglect of the public's interest, welfare, and success are bad citizens, undesirable citizens.

When men become so selfish, self-centered, and interested in their own affairs that they will not give

some of their time, energy, interest and talents for the general public's good, they are an enemy to the country.

Selfishness creates the bad citizenship of good citizens.

SECOND—Disregard for law. There is a growing disregard for law. Men are trying to circumvent law; they are devising every scheme possible to escape the operations of law; they are spending every energy they possess to defeat the judge-

ments of law. This tendency is putting our government in jeopardy.

THIRD—Ignorance. Ignorance is a deadly enemy to society. The amount of ignorance in this country is alarming. We discovered it when we drafted the boys for the late war. A large percentage could not pass the examinations.

The time has come for us to demand that the common school education of this land shall become universal and compulsory. Every child should be forced to graduate from the public schools. The Smith-Towner Bill now before Congress ought to be passed, and the Federal government ought to be made to aid the public school system of this country.

The little red school house should dot every hill and fill every valley in America; and every child in America regardless of race, color, or condition should be forced to remain in the public schools until graduated from the ninth grade.

poem by UNCLE JOHN

You've made yer mind up, Jenny, so there's nothin' left to say, that I reckon would impress ye to do some other way. . . . You never was a stubborn child, or one that don't behave,—but you're mighty sot, I've noticed, on the little things you crave. . . . So, you're goin' to the City—where there's heaps of fine "careers" and worlds of "opportunities" around ye everywhere—I wouldn't want to be ye to continue these backward and forward movements until they shall come to see the folly of it all and understand that that which has a beginning must have an end, and that the sooner men shall avoid 'beginning, when the beginning spells disaster and trouble, the better for mankind, the miners included.

THE PARTING . . . When I think about them "type-machines" or clerkin' in a store, where the boss ain't never satisfied, but—alters wantin' more—where there's slim respects for purity, and everything's fer show,—it overcomes me, Jenny, and—I—hate—to—see—ye—go!

There's often hidden torments in the prospects that allure, and a million tons of riff-raff in the City's social sewers. . . . And the hell of human passion, in the high as well as low,—I may be wrong about it, but,—I—hate—to—see—ye—go!

Yer mother'll recollect ye, when she says the evenin' prayers. Some people think a mother is the only one that cares. . . . But we'll watch the papers closer than we used to do, ye know—and we'll wonder—wonder—wonder, Child—I—hate—to—see—ye—go!

For Uncle John.

SOME HOME COMING AFTERTHOUGHTS

Editor Big Sandy News:—Inasmuch as I am among the disappointed ones, I have it in my heart to set down some afterthoughts concerning the memorable centennial and home coming week recently celebrated by the dearest town in the world. But these afterthoughts are after only in the sense that they are being written after the golden week; they have been entertained and thought through before. It is not too much to say that they fairly haunted me when memory was especially quickened by the event itself. I had hoped that it might be convenient for our efficient committee to set the date in September rather than August, as I had an engagement of a year's standing for the latter month. At one time it seemed possible for me to come anyway, and I was just ready to wire the program committee, asking for the privilege of a season appropriate to the occasion. But the tide of events turned against me. Nevertheless, I did come in spirit, though my bodily presence was detained at a distance of a thousand miles.

Begin As Printer's Devil.

My first afterthought centers about the Big Sandy News, its remarkably fine memorial number. Having been a printer's devil myself, and knowing something of stoking the fires of energy necessary to getting out an average newspaper, I was profoundly impressed with the skill and toll, both mental and mechanical, which went into the making of an edition that will be long treasured by every loyal Louisian. The work of going over the files of the NEWS for many years past that we might have a kind of historic moving picture film in personal and general references, was immense. As the edition unfolded its glowing pages before my admiring eyes and grateful heart, I felt like shouting, not inebriatedly, "Big Sandy Against the World," but: "The Big Sandy News Against the World!"

Nor can I resist adding, in this connection, that I am heartily proud to have begun life, even before the "news" age was upon me, in the printing office of the Big Sandy News. I count those among the happiest days of a happy life. Even the memory of the enthusiasm with which I pursued those influential and formative years as devil, printer, foreman and assistant manager is of the essence of pure delight. Should I live to be a centenarian, no day will stand out more clearly in mental perspective than that first morning when the Editor set me to sorting "pi." It was a radiant Monday morning. On the previous Saturday or Sunday—I am not sure—which Uncle Henry Sullivan told me that arrangements had been made for me to begin work the following Monday; that I was to receive one dollar per week for six months, that I was to come and live at Grandmother Sullivan's and pay my board by carrying up the coal and kindling from certain rather dark regions, as my boyish imagination pictured them, under that dear old lark house, now long level with the dust, but which will ever be synonymous with an exceedingly happy childhood. Such a grandmother, and such kind-hearted, indulgent uncles, it would be hard to surpass. To have been enriched with a noble parentage—that is something to be everlastingly thankful for, and then to have had this supplemented by such additional parental hearts—why, that makes one feel, with Wordsworth, that cows had been taken for him indeed.

But getting a job with the NEWS and a place to stay did not solve the whole of the problem confronting me. It was also necessary to obtain my father's consent. Having reached the rather edgewise age of twelve years, it is quite possible that I did not go about this phase of the matter very diplomatically. At any rate, on going out home Sunday afternoon and telling my father of the new realm of exciting adventure awaiting me in the form of a printer's devil, I found him decidedly unfavorable. Yet, as everybody knows, he had a son of velvet under an apparently harsh exterior. His children knew this both by instinct and experience and habitually took advantage of it. So, having gotten my member belongings together in a kind of improvised knapsack, and realizing, moreover, that one bag and the open gate might see me safely through the danger zone of switches that were frequently threatened and rarely applied, I made for the dusty road, the town hill, and the land of my dreams—which happened to be the old red brick clerk's office in the court house square.

All these hopes and fears, mark you, were pressed into that fateful Sunday. So eager was I to enter my career of devilry that I slept little that night. Consequently, Monday morning found me up before the dawn and upstairs in the NEWS most alert readers. Taking up my position on the main street side of the old fence surrounding the court house, I began a long period of "watchful waiting." Now, to be perfectly frank, and in the interest of keeping this record straight—and moreover, if hard pressed, I could subpoena Miss Willie Burgess that was as a material witness in the case—in those days the Editor of the Big Sandy News was not up as early on Monday and Thursday mornings as on other mornings of the week. Hence my waiting from about four a. m. until sometime between eight and nine a. m. At the time, of course, I was blissfully unaware of the reason for this somewhat tardy appearance of the Editor on Monday morning. But we learn much in the come and go of the years. Past midlife now, I have concluded that from the days of Helen of Troy down to this good hour, young men have been inclined to reach their places of business rather late on Monday mornings; and if all the young men in history have been as fortunate as those following the unwritten but very effective laws of Louisiana's social code—inasmuch as Wednesday evening happens to precede Thursday morning—the latter may likewise be included in this observation!

Two outstanding days of these seven or eight years have marked themselves in my memory quite definitely.

One was the late Thursday afternoon when the Editor and I, Mr. Conley—(no "devil" ever had a better foreman than he!) concluded that I was physically sturdy enough to "ink" that queer little old Army press. Talk about the thrill that comes once in a lifetime! I can feel the effects of that enchanting experience after more than thirty years. My self-importance took on such obvious dimensions that the Editor, for whom Boyd Ferguson, Jeff Wilson, Ben Strachan—as well as John Stewart, Milt Burns, and Noll Garrod, who often came in to "Josh" me—must have had serious doubts of the future eagerness of my hatband!

The other unforgettable day was that Thursday, some years later, when the NEWS came out, bearing this significant line in the upper left-hand corner of the editorial page:

Fred Shannon, Asst. Manager.

Well, I don't know how John D. felt when he became the richest man in the world; or how E. J. Buffington—another Big Sandy almost—felt when he was chosen President of the Illinois Steel Company; or how Woodrow Wilson felt when, as the late Joseph Choate says, the great President produced state papers than which there have been no greater since the foundation of our government. But this I do know—and you could have felt any bigger than I did on that historic day when mankind were apprised of the fact that Fred Shannon was henceforth assistant manager of the Big Sandy News! If we are really no bigger than we felt, I was vastly bigger on that day than three decades ago than I am this morning.

Quite seriously, however, those were deeply fortunate days for me. In the first place, I was enamored of the printing business. William Morris, poet, decorator, and translator of the Icelandic sagas, once exclaimed: "Would God I had made me a printer from my mother's womb!" Possessing not even a vestige of the Englishman's artistic genius, yet my early love of typesetting and the printing art has given me a slight appreciation of the order glowing through his words, which were thrust into my memory many years ago. In the second place, no lad was ever more fortunate in his employer. Naturally, by virtue of appreciation if not by any personal contribution on my own part, I have continuously enjoyed a large share of the success which has justly crowned our local newspaper's handsome career.

Here I have rambled along too much already, and only one "afterthought" has been exposed, while there are very many more in the background. "Space is as nothing to spirit" is excellent poetry; but "space," as reckoned by editors, cannot be measured by such intangible rods. However, I am going to ask for room for one other afterthought, even though it may have to be run "solid." (Ed. Spencer, at least, does not need an interpreter for this shop talk!)

The other thought relates to the spiritual phase of the centennial and home coming week. I do not use the term in any narrow or exclusive sense, but rather in its inclusive and enriching content. As a matter of fact, the joy of the home coming lifts the spiritual feature into high and beautiful relief. It reminds us that human beings are chiefly moved and ruled by noble sentiment, which is essentially spiritual. And once we have set our feet upon this path, how quietly and surely our best memories turn to the Christian church, and those who were and are fellow-workers in the Kingdom of God. Take the churches out of Louisiana during these hundred years, and what a different home coming it would have been! Indeed, one wonders if the town would have survived its hundred summers and winters at all? For even the people who never enter a church would be the first to move away from a churchless town.

Early School Days.

Yet all this is rather negative, when my heart is filled with positive gratitude to those who were "found faithful" in the days of my childhood and youth. One of the first and best teachers I ever had was Hannah Lackey. I have reminded that herel soul more than once of my somewhat informal matriculation into her classes in the Masonic Hall. When the bell rang on that first morning of my school days, I rushed in with a company of other little savages and preempted the first convenient seat. After much tribulation, she mastered the noise, organized her classes, and got down to business. Things were going along famously, when by the organized stillness was broken by the most ear-splitting and shrill of whistles! With a sort of Lord Kitchener judgment seat in her face, Hannah calmly asked: "Will the boy who made that noise please stand up?" Evidently thinking that school was a place in which to display one's ability in producing the loudest noise, and proudly convinced that I deserved a reward, I promptly stood up. Summoned to the teacher's desk, I was told to remain standing. Somehow, in the stress of her work, the teacher forgot to command her order in the season and I just kept on standing. Now, standing on your feet, after a little, becomes quite irksome. Then follows a period of shifting the weight from one foot to the other. That, too, after awhile, fails to give the desired relief. To make a long story short, when the kindly teacher's attention was attracted by the suppressed whining of the very tired human midgut behind her, she dried his tears and sent him back to his seat. So far as I recall, that was the first and last time that I ever turned the atmosphere of a schoolroom into a shrill, whistling secret!

I think of other teachers, too—Davis Holt, now an honored minister of the Gospel, John Hubbard, R. C. McClure, W. D. O'Neal and Doctor G. W. Wooten, who, though I was too young to be in his classes, in later years exerted a most helpful influence over me, as he did over a host of others. Two teachers leaving a distinct impression upon the public schools of Louisiana were Professors Anderson and Welch. I was working in the printing office during their time, but participated in the Friday evening debating society which they organized and fostered. Jay Hurton, Will O'Neal, John Akers, Professors Anderson and Welch and myself were the ring-leaders of these weekly jalkfests. One Uncle Will Moore—the very thought of him is like delicious fragrance rising from October gardens!—was present when I

had a declamation on Joan of Arc. Uncle Will was nothing if not movingly appreciative, and no doubt placed a much higher estimate upon my youthful effort than it deserved. Nevertheless, his enthusiastic commendation gave me a taste of the joy of moving people by the power of speech.

It is evident by this time that I intend keeping the schools and churches together. Those two great institutions properly belong together, in no formal and sectarian manner, to be sure, but by the far deeper and more vital ties of shaping and creative ideas they nourish. Any education that is not inspired by Christian principles becomes a curse and ultimately pulls down the house of civilization in ruins. Therefore, one can sincerely overestimate the religious tragedy of a nation that fails to inculcate the spirit and teachings of Christ in the training of its youth.

Preachers And Others.

Turning from the schools to the churches, I recall some of the ministers to whom I am greatly indebted. Among these were the Revs. Cook, Cox, Simpson, Hiner, Jolly, French, Reid, Switzer, and, in a special sense, Rev. John Hampton and Rev. Ernest Robinson. And then when one turns from the clergy to the laity—those lovely, cultured, consecrated souls who are spiritual jewels in Louisiana's crown of rejoicing—there is simply not space to mention all of them! Where would the ending be were one to begin expatiating on his indebtedness to those who blessed and inspired his boyhood and later years? I think of such families as the Wallaces, Northups, Stewarts, Borders, Waldecks, Laynes, Vateses, Barchetts, Snyders, Burgeses, Burdases, Castles, Frenses, Conleys, Sullivans, Thomases, O'Briens, Gunnells, Lackeys, Vinsons, Garreds, Billingses, McClures, and well, is it not a fragrant bouquet that has no turning? Mainly, one is confronted by a process of elimination; therefore, I am going to speak of one or two concretely and in particular. They will serve as specimens. This held up, Louisiana may paraphrase the words of the Mother of the Gracchi: "These are some of my jewels!"

The first is Uncle Rollz Burns. Among my earliest memories is the unfolding picture of him as Superintendent of our Sunday School. He was one of the best any school ever had. I know. Lovable, devout, faithful, he was the Bible, and gloriously faithful, he wrought himself into our affections. One of his outstanding qualifications for that high office was his deep-down love of little children, young men and maidens. I am still keenly aware of the fine ecstasy that fairly possessed him as he worked in the school. He had a sweet, mellow voice for singing, and he used it as one who sang with the spirit and the understanding. Somehow, in thinking of Uncle Roll, there comes to mind an incident in the life of the great Lister.

In one of the children's hospitals in which he practiced, one little tot, says his biographer, was asked what he thought of the great surgeon. "Oh," exclaimed the child, "every time he comes in he just seems to be looking for a little head to pat!" How many little heads Uncle Roll managed to pat! And in that gentle, kindly pat did he not leave something akin to sweet apostle memories for some of us who are still climbing, however falteringly, the upward way? The summer before he went away, I took him for a little drive about town and out into the country. On returning home, and just before getting out of the car, he said: "Fred, I want the Lord Jesus to be able to say 'Roll, there is something that you can still do for me down in Louisiana that no one else can do, and I'm depending on you to do it.'" Little wonder that the dear man of God kept his spiritual greenness until he slipped away into "the Land of Beginning Again." I shall never be able to fully discharge my indebtedness to Uncle Roll. As I have gone over the country telling "the old, old story," his name and influence have wound through it like a lovely song that sometimes steals unbidden into the music that comes only in dreams.

The other character is a woman—and still in the flesh, I am thankful to say. We are in the habit of revering most of our good things to say about the dead. This habit has got itself colored into such phrases as "Speak kindly of the dead." One has no quarrel with the fitness thus suggested; the criticism comes by way of contrast in the fact that we refuse to the living those tokens of loving kindness which we lavish all too freely upon silent forms and faces. Long ago I resolved to spend more time in making garlands for the living and less time in botanizing over graves grown rank with flowers of regret. I believe that the thing is Christian, and I know it to be golden and wonderful.

High up in any list of the great women it has been my privilege to know, the names of my Grandmother, Mrs. C. C. Sullivan, and Mrs. F. T. D. Wallace must inevitably appear. What I owe to the first by inheritance and training, and to the second by inspiration and example, is far more than can be put into words. Of the many generous characterizations in your centennial number, Mr. Editor, there was none truer than this: "Louisiana has no more highly prized citizen than Mrs. Wallace." The fact is, I could take your words as a text and write a three-volume sermon on Christian citizenship, without so much as moving my position one foot further back from the resounding shore of Lake Michigan. I would guarantee to prove that if the average citizenry of Louisiana and the world measured up to the standard attained by that elect lady, several thousand preachers in America would be forced to look for other jobs! When I recall some of the crowned queens of history, and then set alongside them this and other uncrowned queens of Louisiana, I seem to get a new understanding of Christian queenliness. Spontaneously do the Master's words spring up in the heart: "O woman, great is thy faith; he it unto thee even as thou wilt."

Our Chicago Colony.

Just a word concerning our little colony of Louisians here in Chicago. Mrs. Doctor Funk and her daughter, Pauline, are well known and helping the world along. As to my neighbor and boyhood friend, Luther Walter, were we not all proud to have him bring back home such a splendid edition of manhood? He is one of our

big, upstanding lawyers and citizens. It is not for me, to say how much Luther owes to his noble wife, but I fancy that he would say: "Everything that's good!" Do you wonder that I am happy to have such homefolk near by?

And now, truly, was not the homecoming greatly worth while? What friendships were refreshed! What acquaintances renewed! What eloquent hymns recalled! What memories transfigured and reverently deepened! What vanished faces kept coming tenderly near! What defeats forgotten, what victories glorified! These were among the thoughts that continued winging and singing in the soul of one who was far away and yet constantly near during Old Home Week. I measure my words when I say that such a feeling and atmosphere as were there generated and manifested is one of the supremely deep needs of the whole world. Suppose such a feeling of fellowship and friendliness should descend like an atmosphere upon our own and other nations. I tell you it would do more toward solving mankind's tremendous problems than all the patched-up social quackeries, national cunning and political cleverness can ever hope to accomplish. Every movement worth while must be fed upon the vitalities of good-will, "interest," said Woodrow Wilson, in his great Manchester speech, "does not bind men together; interest separates them." There is only one thing that can bind people and that is a common devotion to right. And how can this common devotion to right be excited, lifted up to great heights of high-mindedness and unselfish beauty, save in the sweet, clear, sunny atmosphere of the soul's homecomings and fellowships?

The Only Solution.

Therefore, more and more as the years run swiftly away, our Louisian is a highly resolved to tell men and women of every creed, color, nation, and politics, that the only solution of right-living and happiness in this or any other world is that given by our Lord and Master. It is close at hand, eager to be tried, and as sure to win as the tide runs in and out at the moon's mysterious call. When statesmen learn that the Kingdom of God is bigger and more important than nationality, and the sole secret of all true nationality; that fraternity is larger and more efficient than blind patriotism; that right-doing is more to be desired than getting back to the state houses of London, Washington, Paris, or Berlin; that, in the long run, it is the highest wisdom to practice righteousness and turn away from iniquity—why, the world itself shall then feel the thrill of such a fellowship as throbbeth through Louisiana's homecoming week. But let us not forget that the vast majority of our leaders are precisely what we want them to be. Now and then there are sublime exceptions—a Washington, a Lincoln, and a Wilson point us to the uplands where we follow them or not. But in these white-hot modern years, when history is being made so fast that it cannot be written, mankind cannot subsist upon its infinite exceptions. How imperative, therefore, that the vision of the average man and woman should be cleanly Christian. For if our citizenship becomes Christian, it will drive from public life, with a whiff of cords knit of righteous thoughts, very time-serving politicians who fear defy his commands and better instincts. What a mountain-high responsibility rests upon the citizens of America this very hour, when war-clouds again darken the horizon of the world! If, after all, they should be woven out of the treacherous shreds of our international phariseism, the Lord have mercy upon us! We may nonchalantly say that it is none of our business. Nevertheless, righteousness, judgment and doom do not pause to parley with our smug and ignorant self-satisfactions. Once the conditions of the law of "the sudden leap" have been fulfilled, they descend as swift as lightning and as irrevocable as death; and in their wake there is the desolating evidence of ruined cities and mounded wheatfields. And all because Jerusalem knew not the day of her visitation!

The Inevitable Harvest.

If these more sober reflections are a part of my expression of gratitude and devotion to the town of my childhood and youth, it is because I there learned that "when a man sows, he shall also reap." The ears have taught me that this undeniable law is not merely individual, but social, industrial, political, national, and international as well. That is why I pray the spirit of homecoming may come sweetly home to every heart in the wide, wide world. Therein is hope for despair; forgiveness for hatred; love for misunderstandings; peace for storm and fury. It is God's way of bringing Heaven to earth and of lifting earth up to Heaven. There is no other. Then why should we not begin again, at the right where we are? Tell me, all ye who have been a part of these hundred years, some of whom have increased in goods and attained what we call worldly success—tell me if, in journeying about the world, you have come upon any words so high with hope and wonder and fruition as these: "Verily, I say unto you, Except ye turn, and become as little children, ye shall in no wise enter into the Kingdom of Heaven." Consider that here is the secret of all true genius: It is just the art of carrying the spirit of childhood, with its simplicity, its freshness, its trustfulness, its forgiveness, into the outlook and purposes of mature life. And this is what I am going to tell that great congregation assembled from many states and countries and walks and stations, in Central Church next Sunday morning. One does not have to go anywhere in quest of the Angel of Happiness; he is standing upon our own doorsteps pleading to be let in. Then is it not yours and mine, O friend, simply to open the door and let in our waiting Angel that we may experience the joy of our own deeper homecoming? And however imperfectly I tell the story to that great throng, I shall necessarily feel that I might have done better, because I had in dear old Louisiana such a happy childhood; because there my loved ones either live or sleep; because there life's richest friendships began and continue; and because I think Pine Hill Cemetery as good a spot to hear the golden tones of the Angel of the Resurrection as any bit of God's

AMERICANS ON TURKISH FRONT

Uncle Sam shakes a positive head and says we will not be drawn into the European tangle caused by Turk victories over the Greeks and the massacre at Smyrna. However, American representatives are at work to report developments and help in relief work. The photo shows Admiral Mark L. Bristol, with his wife, and Davis C. ONE FINE DAY.

(By Nell Hopkins Hughes)

Ye ask me to answer yer questions, And ye say yer a newspaper man And ye wants to put down a short story In writin' fer a corner newstand?

"She follows me about my House of Life, (This happy little ghost of my dead Youth!)

She has no part in Time's relentless strife, She keeps her old simplicity and truth—

And laughs at grim Mortality, This deathless Child that stays with me—

(This happy little ghost of my dead Youth!)

My House of Life is weather-stained with years—

(O Child in Me, I wonder why you stay.)

Its windows are bedimmed with rain of tears,

The walls have lost their rose, its thatch is gray.

One after one its guests depart, So dull a host is my old heart.

(O Child in Me, I wonder why you stay!)

For jealous Age, whose face I would forget,

Palls the bright flowers you bring me from my hair

And powders it with snow; and yet —and yet

I love your dancing feet and jocund air.

I have no taste for caps of lace To the about my faded face—

I love to wear your flowers in my hair.

O Child in Me, leave not my House of Clay

Until we pass together through the Door,

When lights are out, and Life has gone away

And we depart to come again no more.

We comrades who have travelled far Will hail the Twilight and the Star,

And smiling, pass together through the Door!"

Central Church Study, Chicago, Ill., Sept. 21, 1922.

It was at a college party. The young man had just been introduced to her, and after a brief and awkward silence he ventured, "You are from the West, I understand."

"Yes, from Indiana," she replied, "Hoosier girl."

He started and flushed deeply. "Why—er—really," he stammered, "I—I don't know—that is, haven't quite decided yet."

On the 24th of March, 1842, in a little log cabin on Bellstrasse the subject of our sketch, A. J. Webb, was born. Shortly afterwards his parents moved to Glenwood on East Fork where he grew to manhood. He helped clear the new grounds and build fence and knew all about the hardships incident to exploiting a new home in the wilderness.

When the Civil war broke out he enlisted in the militia and served several months.

"By their works ye shall know them." He did not believe in race suicide for he was twice married and to the two unions seventeen children were born, fifteen of whom survive. After his first marriage he moved to Oliveville where he lived the rest of his life.

He was one of the best known men in the county and the needy never appealed to him in vain. He was hospitable, charitable and kind to a degree possessed by few. His readiness to help and his gentle disposition of which the dishonest took advantage often caused him to lose as his books show.

For several years he was a leading merchant at Oliveville where he had a grist and saw mill. He was very industrious and believed in the proverb "Plow deep while shuggards sleep and you'll have corn to sell and keep." He was a very early riser, often in the field before the stars had hidden away. His large crops of corn and bins of wheat were proof that his labor was not in vain. He owned sixteen hundred acres of land and had plenty of property. Until his health began to fail him his farm was well kept and his orchards well pruned.

He believed in good roads and often built and repaired at his own expense. He believed in good schools and churches and gave liberally to the support of both. He was a member of the Methodist Church South and gave more than all the members combined in the building of the Oliveville church.

About six weeks ago he was taken with pneumonia. He seemed to get better but his condition gradually became worse till the 23rd when his spirit took its flight to the God who gave it.

Fourteen of the fifteen living children were at his bedside when the end came. How tenderly his wife and children had ministered to every want! Nothing was left undone but the enemy won and he fell into that dreamless sleep from which no traveler has ever returned.

On Monday the 25th his funeral was preached by Revs. Robert Cassidy and Tolien Hutehul after which the mortal remains of A. J. Webb were taken by the Masons and I. O. O. F. to the family burial ground that overlooks his home and consigned it to the mother earth to await the resurrection morn when it will come forth an immortal body.

Besides his wife and fifteen children he leaves fifty-four grand children and nearly a score of great grand children to mourn the loss of an affectionate husband, a kind, indulgent father and a tender and consoling friend.

His aged mother who has passed her 99th birthday still survives. He also has four brothers and four sisters living.

He is gone but not forgotten for his memory lingers still. The bereaved have our deepest sympathy.

BROWN EYED PAIS.

Entertaining.

Little Teddie was full of questions. Approaching the aged man on the pier again, he said:

"What time does the tide come in, Mr. Fisherman?"

The aged man looked at him warily. "I've told you several times already, you young rascal," he said. "At 5:55."

Then little Teddie explained: "Yes, I heard you the first time, but I like to see your whiskers wobble when you say 5:55."

Community Meeting at Gallup Great Success

A farmers' community meeting was held at Gallup school house Saturday, Sept. 23, and proved to be a great success. County Agent Baker of Louisa and Mr. Whitehouse of Lexington were with us in the forenoon. Mr. Whitehouse gave a talk on organizing the farmers' club, which was very interesting.

Then all enjoyed a delicious dinner which was an old fashioned basket dinner prepared by the farmers' wives.

In the afternoon we were entertained by an interesting ball game, the young men playing against the old, the young men being champions by one score.

The officers were elected as follows: W. A. Carey, president, Mrs. Maud Childers, secretary, P. C. McClure, secretary, Program Committee, Mrs. W. A. Carey, Mrs. J. M. Irwin, Mrs. J. H. McClure, Resolution Committee, J. H. McClure, J. J. McClure, Mrs. A. T. Shannon.

The following resolutions were adopted:

1st. That we heartily approve of this community organization and ask that the following resolutions be adopted:

2nd. That we praise Mr. Baker for his untiring efforts in establishing this organization.

3rd. That we extend to Mr. Whitehouse our thanks for being present at this meeting and will be grateful if he will be present in any future meetings.

4th. That we are grateful to the good women for the delicious dinner.

5th. That we heartily endorse the work of our County Agent and jointly ask the Fiscal Court to make appropriation for an agent next year.

Big Tri-State Fair in Huntington Oct. 16-21

Everything is practically in readiness for the opening of the gates for the big Tri-State Fair at Huntington October 16th. An extra force of workmen was required to put the plant in spe and span condition, but with the arrival of sufficient lumber, the work progressed rapidly and the contractors in charge have announced that the plant is now ready for the exhibitors to move in. Within the next few days the fair grounds will resemble a tented city.

The work of looking high class amusement acts continues. While the aerial circus is the chief free attraction, and Pains Fire Works Display at night, other headlines are being booked whenever the opportunity presents itself. Mr. and Mrs. Bert Davis, famous throughout the land for their comedy skill at fairs will be on hand disguised as "Uncle Hiram" and "Aunt Lueindy" and are sure to create many laughs as they mingle with the big throng on the midway and other parts of the fair grounds.

The Flying Floyds and the Jordan Sisters have also been signed to contract and will provide many thrills throughout the week. Flying Floyds do acrobatic stunts on an upright steel bar that are most hazardous. The Jordan Sisters specialize in a tight wire walking act, displaying costumes that dazzle the eye. In addition to these acts four bands will furnish music both afternoon and evening. It is only necessary to mention the Nazzi's band and Cervones' band are among the music organizations secured to indicate the calibre of music which will be rendered.

Best obtainable in Midway attractions will be secured. Announcement is made by the fair management that only acts of a clean nature will be tolerated. Gambling in every form is positively prohibited by an order issued by members of the Board of Directors. Arrangements have been made to care for seventy-five thousand visitors during the week of October 16 to 21. (Adv)

When Washington Knocked Out Columbus

No! Not a prize fight, but a knock-out blow for the early development of Kentucky. Washington, D. C., vs. Columbus, Ky.

Here's the story in brief:

The first Congress was called upon to decide upon a location for the Capital of these United States.

Thomas Jefferson, then Secretary of State under President Washington, wanted it at Columbus, Ky.

If you would know why his plan failed—why Washington was finally selected as the Capital—

Read the Entire Interesting Story in the

Louisville Post

This is but one of the many interesting stories of little known facts about the 120 counties of Kentucky which will come from the pen of the Louisville Post's gifted special writer, Mr. Ralph Coghlan.

Some of the others are: The story of Fluorspar, one of the most valuable metals in industry. How Paducah got its High School gymnasium. When King George ate Kentucky ham. The county which does not contain one illiterate child. Mayfield, "the old-fashioned girl," how she surpassed the country club flapper in everything really worth while. How \$300,000 was spent by one county to get out of the mud. When President Tyler was a coal miner in Kentucky.

This series will begin Monday, October 2, and continue daily thereafter. Don't miss the first one.

Telegraphic World News

Because of the difference in time most foreign news breaks best for the evening metropolitan papers. The latest, up-to-the-minute, dependable foreign news is a worth-while feature of the Louisville Post. Its bond and market reports are not only accurate, but complete up to the closing of the New York market.

Political Articles of Special Interest

The famous Washington letters of David Lawrence appear exclusively in the Louisville Post. Sterling Americanism—America and Kentucky first, last and always—is the keynote of the virile Post editorials.

NOW Is the TIME to Repair Your Buildings

Buildings that are not given proper attention and necessary repairs made, depreciate much more rapidly than when kept in good repair. Repairs cannot be made successfully in bad weather and should be made during the summer months. Roofs should be painted, decayed boards replaced and buildings given a general overhauling before winter.

Why not construct that new concrete walk or cellar that you have been wanting, now. Paint the old house, it deserves it.

We carry a complete line of Lumber, Paints, Finishing Materials, Cement, Plaster, Lath, Roofing, Builders Hardware and all other materials necessary to repair buildings of all kinds.
